The Early Termination Charge will be calculated by multiplying the total number of months remaining by the monthly termination charge for the applicable Product.

Example

If you are a First broadband customer on an 18 month Minimum Period that commences on 1st November 2016 and the service is terminated on 15th November 2017, you would be required to pay £50.86. This is calculated as follows:

1. Early Termination Charge applicable 15th November – 30th November 2017 = $(£6.50/31) \times 16$ days = £3.36
2. Early Termination Charge applicable 1st December – 30th April 2018 = $£6.50 \times 5$ months = £32.50
